Nomination Guidelines for SFRR-I Alberto Boveris Award Lecture 2025

We are seeking nominations for the SFRR – International Alberto Boveris Award Lecture 2025 to be given at the 22nd SFRR – International Meeting (hosted by SFRR-Europe) in the University of Galway, Ireland 3-6 June 2025. Further information is available from the meeting website: <https://www.sfrrgalway2025.com>

The Alberto Boveris Award Lecture was established in 2022 in honor of Alberto Boveris and will be awarded on a biennial basis to a scientist who, in the judgment of the International Scientific Committee, contributed significantly to the field of redox signaling. Alberto Boveris was instrumental in the discovery and characterization of the sites of superoxide production in mitochondria pivotal for the understanding of the metabolism of oxygen by mammalian cells. His work, mostly developed at the University of Buenos Aires, is reflected in the publication of more than 300 papers, with his review on hydroperoxide metabolism in mammalian organs published in 1979 in *Physiological Reviews* and co-authored with Helmut Sies and Britton Chance, a real textbook for many working in the redox biology field. He was President of SFRR-International from 2001-2002, and in 2004 chaired the 12th SFRR International Biennial Meeting held in Buenos Aires.

The award consists of a medal and certificate, and it is a requirement that the recipient presents a lecture at the Biennial meeting where the award is made and subsequently contributes an invited Review Article to *Free Radical Biology & Medicine*.

The previous awardee is listed below and further information is available from: <http://www.sfrr.org/fellowships-and-awards>

2023 – Helmut Sies

Once the nominations have been received, the SFRR – International Executive Committee and members of an International Scientific Committee will evaluate these nominations and select the Alberto Boveris Award Lecturer for 2025.

Deadline for receipt of nominations by email is 20 September 2024.

Nomination(s) together with the nominee's abbreviated CV and list of up to 10 peer-reviewed publications with citations, nominee's Scopus *h*-index and the URL for the nominee's research website should be emailed as a **single PDF file** to Patricia I. Oteiza (Email: poteiza@ucdavis.edu).

Prof. Patricia I. Oteiza
Secretary General SFRR – International
